## COTTON ON RISE SINCE GOVERNMENT REPORT

New York, Oct. 3.—Although today's government report on the condition of the cotton crop did not fully bear out some of the extremely bullish private estimates, it was bullish enough to start an active buying movement which advanced prices to a new high record for the season. While there was some realizing the market advanced to 14.12c for December and 14.31c for March before there was any reaction of consequence.

Even then offerings were so well absorbed that after selling off some 15 to 25 points from the top, the market again rallied and at the close was firm with last prices 20 to 30 points above the closing figures of Saturday.

Business was more general than at any time since last May for the excitement which attended the closing

phases of the old crop bull campaign did not represent such widespread interest as the market now appears to be attracting owing to an apprehension that another small crop is to follow.

For the last two or three weeks the market has shown an advancing tendency based upon a bullish view of crop prospect and it now appears that some of the same bull leaders who were prominently connected with the movement of last season are already accumulating large holdings in anticipation of further high prices. The foreign buying had been considerable and before the government's condition figures were issued today, December contracts, which had sold at 12.83c last month were selling at 13.94c, while March contracts, which had sold at 13.87c after the culmination of the old crop bull campaign had advanced to 14.12c.

Ruby West went to Shawnee yesterday afternoon where she will attend school.

## ROOSEVELT'S SOUTHERN TRIP BEGINS MONDAY

Colonel Talks Politics with Candidate Henry L. Stimson.

Oyster Bay, N. Y., Oct. 3.—Col. Roosevelt talked politics for a time today with Henry L. Stimson, republican candidate for governor, said good-bye to Representative and Mrs. Longworth and in the afternoon took an automobile ride to visit nearby relatives. Thursday his Southern trip begins.

A detailed itinerary of his Southern trip was given out today. He will occupy a private car, which during most of the journey will be attached to regular trains.

Leaving New York by the Pennsylvania railroad at 3:30 p. m. stops will be made at 5:44 at West Philadelphia, Pa., 6:24 at Wilmington, Del., and 8:15 at Baltimore, reaching Washington at 9:25 p. m. The party will leave Washington at 10:10 p. m. on the Southern Railway for Lynchburg, Va., where the car will be transferred at 3:25 a. m. Friday to the Norfolk and Western, reaching Bristol, Tenn., at 10:05 a. m. A stop of fifty-five minutes is to be made at Bristol and Col. Roosevelt is to reach Knoxville at 2 p. m., going from Bristol over the Southern. He will remain there until 12:30 a. m. the following Saturday morning.

The ride from Knoxville to Atlanta, where he is due at 3:30 p. m., is to be over the Southern, with a stop at Rome. From 7:52 a. m. until 10:30 p. m. the following day, Sunday, Col. Roosevelt is to spend in traveling over the Southern from Atlanta to Memphis. Departing from Atlanta at 5:30 a. m. he is due at Rockmart at 7 o'clock, Rome at 7:39, Dalton at 8:46, Chattanooga at 10:15 for a stop of twenty minutes. Tusculum at 4:45 p. m. for a ten-minute stop, and Corinth at 6:55 p. m., reaching Memphis at 10:30 p. m. He is to stay in Memphis until 10:05 a. m., leaving over the Rock Island railway for Hot Springs, Ark. He is to be in Hot Springs from 8 a. m. until 5:30 p. m., when he is to leave over the Iron Mountain Route for St. Louis, stopping on the way at Benton at 6:45 p. m. for five minutes.

### Married.

J. W. Price and Miss Rosa Cowert of Konawa came over yesterday and were married in Ada. They returned to Konawa in the afternoon.

## DEMOCRATS PROGRESSIVE

Oklahoma City, Okla., Oct. 3.—Andrew H. Whitmore of Baltimore, special representative of a syndicate of eastern newspapers who is traveling throughout the Middle West making a study of political conditions with regard particularly to the progressive movement, reached Oklahoma City Sunday after spending a week in this state. During the remainder of his itinerary he will visit Tulsa, Muskogee, Hugo, Durant, Vinita and Miami, and then go to St. Louis which he will make headquarters for his itinerary in Missouri.

"The most unusual proceeding on the part of the standpat republicans of Oklahoma that I have found," said Mr. Whitmore, "is that they adopted their platform in advance of the nomination of their state ticket and have compelled the head of the ticket, whom I understand had progressive tendencies until recently, to subscribe to that platform. The democrats, on the contrary, held their convention after the primary election and their nominee had somewhat to say of the plank that went into the platform. They all suited his ideas and the platform was framed by representatives of more than a thousand delegates from the several counties of the state."

"The republican platform is a miniature expression of the ideas of the standpat party of the county arrogantly pledged the party in Oklahoma to some of the fatalistic features of a national administration that is rapidly falling into disrepute. It fails to enthuse the average elector by its sheer dearth of expression on the vital issues of the day; the issues, old as the mountains, that Colonel Roosevelt has facetiously plucked from the very top of the public conscience and arranged into concrete form as the text and platform of the New Nationalism. All abstract ideas of affecting the welfare of governments and of the people have existed from the genesis of time, and for that reason no man should be charged with insincerity or held up as a stoker of fame because he assembles those that at this stage of the world need vital and immediate application."

"The very fact that Mr. McNeal willingly subscribed to a platform made before his day, and probably for another man best suited the convenience and pleasure of the machine and deprives him of that freedom of thought that should characterize a man seeking the exalted office of governor. It robs him of his individuality and makes him a mere puppet; whereas if he had been called into counsel with the platform-makers, after having traveled over the state in a primary campaign and become imbued with the progressive thought and the positive demands of the people whom he seeks to govern, the principles for which he stands would have appealed to the people."

## TAFT HINTS AS TO WHAT MESSAGE WILL BE

Washington, Oct. 3.—By taking President Taft's speech before the National League of Republican Clubs Saturday night, his speech before the Conservation Congress at St. Paul, extracts from his political episode to Chairman McKinley of the republican congressional campaign committee, and adding thereto a chapter on the progress of the Panama Canal and its defense and a chapter summarizing our foreign relations. It will be possible to forecast the next Executive message to congress, as Mr. Taft conceives that document at this time. It is stated on authority of a member of the cabinet that the president's idea is to weld these three documents, with such additions as may be necessary, into what is to constitute his next message to congress.

From the suggestions in these speeches and the letter to Representative McKinley may be outlined a very formidable legislative program for the coming short session of congress. In a general way this pro-

gram may be forecast with some degree of certainty about as follows: Measures for building up the American merchant marine. Limitations of injunctions issued by federal courts. Recommendations for limited traffic agreements between interstate railways.

Additional safety appliance legislation both as to the inspection of locomotive boilers and elimination of overhead and sideway projections.

Further conservation legislation relative to the disposition of water power sites under lease and disposal of coal, phosphate, oil and gas lands. A new form of government for Alaska.

Consideration of the status of the Sherman anti-trust law, and plans to "supplement and strengthen" it.

Closer commercial relations with Canada, and a suggestion probably for a Canadian reciprocity. Recommendations for a federal incorporation act for industrial corporations engaged in inter-state commerce.

Enlargement of the scope of the civil service law, so as to include second and third-class postmasters, and possibly other officers in the customs service and internal revenue service.

Plans for economy and efficiency in the operation of the government. Regulation of the issue of stocks and bonds of interstate railways.

Legislation to forbid the acquisition of stocks by railways in competing lines.

Recommendations as a legislative basis for workmen's compensation. The creation of a national bureau of health.

Recommendation for the passage of the Appalachian forest reserve bill. Recommendations for banking and currency legislation.

## TAYLOR TO RUN FOR GOVERNOR. The Fiddling Politician Wants to Save State From Republicanism.

Nashville, Tenn., Oct. 3.—That "Fiddling Bob" Taylor, three times governor of Tennessee and now a United States Senator from this state is needed to mend the crippled fences of a divided democratic party in this state, was indicated today when democratic conventions met en masse in practically every district in Tennessee and selected delegates to a state convention here. Thursday to name Taylor for governor to oppose Capt. Cooper, who has been jointly endorsed by insurgents and prohibition democrats and republicans.

Taylor has already formally refused to allow his name to be used seriously in connection with the nomination.

At today's county conventions a majority showed sentiment leading to Taylor, but all delegates will go uninstructed in hopes of storming the convention for a Taylor landslide.

## MAYOR GAYNOR ON DUTY AGAIN

New York, Oct. 3.—For the first time since the attempt to assassinate him, Mayor W. G. Gaynor returned today without any ceremony to his duties at the City Hall. Those who last saw him on the day in early August when his proposed trip to Europe was broken off by the almost successful attempt on his life agreed that except for a huskiness in his voice and an almost imperceptible halt in his manner of speech, due probably to his still tender throat, he had changed not at all. Some thought at first they noticed a slight swelling in the lower left cheek, but on taking a closer look they weren't so sure about this.

Certainly his slight figure was held as erect, and certainly, too, his step was as alert and brisk as it ever had been. His pleasure at being back again in the familiar setting of his office was manifest and he took up the broken ends of his work with every outward indication of zest.

Citizens Are Received. After spending more than an hour at a budget hearing before the Board of Estimate he was still fresh enough and strong enough to meet an informal committee of 100 citizens of prominence, who, in response to an invitation sent out on Saturday, gathered at the hall at noon to congratulate the Mayor upon his return.

"I'm glad to be back again—very glad," said the mayor. "My health is good, my general health is very good for I have had a long rest, but my voice has not fully returned to me yet; it is still affected, and if I put a strain on it, it weakens, so it must not be unduly taxed. That is why I must make this talk with you very brief."

Someone present suggested that vocal strain might follow if the mayor, as presiding officer of the Board of Estimate, undertook to conduct the hearing at today's budget exhibits—the business which mainly brought him to town.

"Oh, I don't know," was the answer. "As you gentlemen know, I have never been in the habit of talking very loud, I think I will get on tolerably well," said the mayor.

### Noted Lecturer Coming.

Rev. John A. Boyet of Durant, will lecture at city hall Thursday evening subject "Sweetened Wind." Dr. Boyet is one of the most popular lecturers in the South. He will entertain you and stimulate all the sentiment of your soul. He is a logician, orator and humorist. In pathos, wit and word painting he has few equals and no superiors. Remember at city hall Thursday evening 8 p. m. Tickets on sale at Ramsey Drug store. Buy a ticket and help the ladies of North Ada church to buy their new pews. 154-3rd

If the new tariff law is "the best  
republican tariff law ever enacted"  
why is President Taft so anxious to  
amend it by piece-meal? Perhaps  
President Taft does not expect the  
republicans to elect a majority of  
th next Congress, so feels safe to  
take chances on his paradoxical  
position in the hope that this tariff-  
revision sop to the insurgents may  
save something from the wreck of  
republican fortune.

When two preachers match a de-  
bate on the Bible the devil goes off  
on a vacation, knowing that his in-  
terests are being well looked after.

## WASHINGTON LETTER.

### After Election.

The republicans promise to make  
public the source of their campaign  
contributions—after the November  
congressional election.

The report of the standpat republi-  
can members of the Ballinger in-  
vestigating committee is to be made  
public—after the election.

Nothing further is to be said of the  
\$5,000,000 Taft-Humphrey ship sub-  
sidy grab bill—until after election.

The soft pedal is to be applied to  
the Oklahoma Indian lands thievery  
—until after the November election.

Nothing is to be done with the Lor-  
imer investigation—until after elec-  
tion.

No step is to be taken in the sug-  
ar trust—friar lands Philippine scan-  
dal—until after the November elec-  
tion.

And, last but not least from the  
standpoint of relative importance,  
the National Monetary commission,  
of which Senator Aldrich, is chair-  
man, will not make its report rec-  
ommending a central government  
bank—until after the November elec-  
tion.

### Another Case of Larceny.

The national republican platform  
of 1892 contained the following para-  
graph:

"We denounce the efforts of the  
democratic majority of the House of  
representatives to destroy our tar-  
iff laws piece meal, as manifested by  
their attacks upon wool, lead, and  
lead ores."

Times have changed. Republican  
candidates for Congress, upon the ad-  
vice of President Taft, are now ad-  
vocating and promising tariff revis-  
ion "piecemeal" with the intimation  
that the schedules enumerated will  
be the first ones tackled. In other  
words, the republicans have adopt-  
ed another democratic idea.

### Why Meat Is High.

Thirty-five per cent is the amount  
of profit Armour & Co., forced the  
public to pay last year. This became  
known through a statement submit-  
ted by Armour & Co., in connection  
with the listing of a bond issue of  
\$30,000,000 on the stock exchange.  
The company by its own showing  
made a gross profit of \$10,582,000 for  
the year 1909 on a capital stock of  
\$20,000,000 and earned a surplus of  
\$7,127,926 or the equivalent of a divi-  
dend of 35.6 per cent. As the price  
of beef was boosted with the begin-  
ning of 1910 it would appear that in  
the opinion of Armour & Co. a 35.6  
per cent profit on capital stock is  
not ample, even though the com-  
modity involved is one of the neces-  
saries of life. Armour & Co., is one  
of the beef trust firms which enjoy-  
ed perfect immunity from prosecu-  
tion by the government until Feder-  
al Judge Landis of Chicago, an in-  
surgent, forced the Taft adminis-  
tration to take cognizance of the fact  
that the beef trust was illegally  
holding up the public.

### The Postal Banks Cheat.

Twelve hundred and fifty banks in  
various part sof the United States  
already have made application to the  
postoffice department to be designat-  
ed depositories for postal savings  
funds, and 648 postmasters have  
made requests for the establishment  
of postal savings banks in their  
offices. About 80 per cent of the ap-  
licants will be disappointed. The  
government intends to start but one  
or two postal banks in each state  
for the present. Some day, perhaps,  
possibly when a central government  
bank which can be manipulated by  
Wall street comes into existence, the  
postal bank system may be extended.

### JUVENILE BLOCKHEADS.

Stupid Boys Who Developed Into  
World Famous Men.

There is quite a long record of fa-  
mous men who in their boyhood were  
regarded as fools and dullards. Sir  
Walter Scott was called a "block-  
head" by his mother. The mother of  
Brinsley Sheridan despaired of teach-  
ing him the simplest elements. Her  
death aroused him to activity and he  
became a scholar, philosopher, poet,  
wit, statesman and orator. Dean  
Swift, the keenest wit of his age,  
was "plucked" at Dublin university.  
Newton, Shakespeare, Michelangelo  
and Oliver oGldsmith all come in the  
category.

One day a slatternly woman rushed  
out of a little grocer's shop grip-  
ping an unkempt boy by the ear, and  
as she pulled him along she shouted  
to her neighbor:

"My heart is fairly broke with  
that brat, Tammy, and he is so stupid  
he can learn nothin'!"

That stupid brat Tammy became  
the poet Tom Moore.

In a country school house in  
Queen's county, Ireland, a boy with  
a blunt knife cut in the desk "A. W."  
the initials of his name. The teacher,  
who caught him in the act, cried out:

"Stupid, you are better at cut-  
ting letters and destroying desks  
than you are at learning your les-  
sons."

That boy was Arthur Wellesley,  
known to fame as the Duke of Wel-  
lington, hero of Waterloo.

In the middle years of the last  
century, in St. Malachy's college,  
Belfast, a boy carved the letters "C.  
R." in the wood. The French profes-  
sor reported him and declared that  
he "was besides a worthless boy,  
who would never amount to any-  
thing."

"I will amount to more than you"  
returned the youth.

He did, for he became lord chan-  
cellor of England—Lord Russell of  
Killowen.—London Graphic.

### First Number of Lyceum Tonight.

Tonight at the normal auditorium  
the first number of the Normal Ly-  
ceum course will be presented by

vis, arrived this morning on the  
southbound Frisco. This company  
comes with a reputation of being  
among the very best, and doubtless  
will be one of the strongest to visit  
us this season.

### Weather Forecast.

East Texas—Showers Tuesday, Wed-  
nesday partly cloudy; moderate var-  
iable winds.

West Texas—Generally fair for  
Tuesday and Wednesday, not much  
change in temperature.

Oklahoma—Generally fair and  
warmer Tuesday and Wednesday.

## PROMINENT ADA CITIZENS INDICTED

### Grand Jury Returns Bills Against F. O. Harris and R. P. Ford.

The late grand jury reached both high and low. Yesterday two of Ada's prominent and substantial citizens were arrested on indictment warrants. The first, F. O. Harris, cashier of the Farmers' State Bank, was charged with falsifying the books of a corporation. The second R. P. Ford, one of the largest land holders in the county is charged with offering false evidence. Both of course, readily gave the required \$2,000 bond each.

### A Very Quiet Wedding.

Miss Beulah Havlin of this city, was quietly married Saturday afternoon to W. H. Kerbo, a traveling salesman now of Ardmore.

Miss Havlin was employed as stenographer for the Waples-Platter Co. and worked till 5 p. m. as usual. Then Mr. Kerbo and she took a buggy drive over to Judge Barton's residence where they were married. They went to Ardmore Sunday where they will make their future home.

Mrs. Kerbo is back on a visit with her parents today.

### Police Court Paying Institution.

The report of the Police Judge for last month shows that \$319 in fines was collected and \$175 was turned to the city treasurer. That much being above expense and cost. For August the amount above cost collected and turned over to the treasurer was \$150.

### Tardy.

L. J. Crowder, A. H. Austell, and W. H. Barry were three boys who came very near getting a black mark for being tardy at County court yesterday, because they were summoned for jurors and failed to be on hand promptly at 8 a. m. Judge Barton issued an attachment for them, assessed a fine of \$2.00 and cost on each. Later after hearing their excuses he remitted the fines, leaving the money the cost to pay.

Three witnesses in the Geo. Murrell case were absent; namely, Nancy Ray, John Ray and Lula Poppinale, and attachments were issued for them and they were ordered brought into court.

T. H. Rice of Stratford was here en route to Konawa yesterday. He says that 1500 or 2000 bales of cotton have been marketed at Stratford so far.

Mr. and Mrs. W. H. Murdock returned to Wewoka this morning. Mrs. Murdock has been visiting her Uncle F. O. Harris for the past few weeks. Mr. Murdock came over Tuesday.

Miss Sallie Martin returned from a visit with her parents at Hickory yesterday. She was accompanied by her father and her sister Jewel who were on their way to the fair.

Otis B. Weaver and Byron Norrell are in Oklahoma City today on business—just business. They will return on tomorrow morning and probably tell us what is at the fair.

The Pontotoc County Abstract Co. has moved temporarily to the Rindard building at the corner of Main and Rennie pending the preparations of the office in the rear of the Ada National bank that will be occupied by the company. 151-4t

## COUNTY COURT ADJOURNS.

The county court adjourned after one day's session yesterday, a good deal of business having been transacted, a number of cases continued and the attorneys feeling tired after the siege of district court.

The following cases were disposed of: Pleas of guilty for disturbing the peace, three separate cases, Alver Chester, Andy Jones and Bird Yancy. The jury acquitted F. H. Flippin charged with leaving open a gate. I. N. McClure was found guilty of disturbing the peace.

Geo. Murrell was found guilty on a charge of pointing a weapon, but will get a new trial, doubtless, as the jury intended the verdict to read not guilty.

Ed Stephens was acquitted on a liquor charge.

## COUNCIL MEETING.

Number Bills Allowed and Streets Ordered Worked.

The city fathers met in regular session Monday evening, and all were present except Clark of Ward Three. Bills aggregating \$2,100.00 were presented and allowed, same being an accumulation of two months. The bill of Dr. King for services as health officer was discussed and postponed until next meeting night.

Councilman Sims, of the police committee reported the result of some inquiries made relative to the case of the alleged beating up of a negro by the night watchmen, also of the complaint made by Sam Harris against the night men entering and raiding his hotel without permission from said Harris. In the former case, Mr. Sims recommended that the council and Mayor instruct the policemen to refrain from undue treatment or punishment of prisoners stating this was the duty of the court. In the latter case there seemed to be nothing to justify a rebuke of the officers against whom complaint is made. The council adopted the report.

The city engineer was instructed to at once order the Sewer contractors to level down streets and alleys where needed.

A report of the city treasurer was read and ordered approved. This report shows there is on hand in all funds more than \$19,000.

The report for September of the police judge's office showed a splendid business, there being collected in fines \$319, \$166 of which was turned over to the city treasurer, and the balance to the police judge, policemen and janitor. This is the best month's business in the history of the present administration. Last month's, however, was close up. There having been collected in this month \$288, \$150.25 going to the city. Council Sims acted as Mayor in the absence of Mayor Little who is attending the state fair.

## STREET PERFORMER INTERRUPTED BY OLD ACQUAINTANCE

J. L. Lucas Challenges A. J. Compton, a Street Performer, to Scrap.

A. J. Compton, a Texan, who does transmigration of the mind stunts on the streets, was in the midst of his show this morning, when one J. L. Lucas, a well driller, appeared in the audience and informed the show man that he, Lucas, had seen him before, and that he would dare him to meet him in a physical combat. Soon afterwards, the two were making for the cotton gin district, to settle their roubles, whereupon the "Big Chief" appeared and took charge of the duelists. A great crowd followed and Lucas was arraigned before Judge Powers on the charge made my Chief Hounshell of disturbing the peace and challenging to fight. Lucas plead guilty to the charge. When asked whether or not he had any statement to make concerning his reason for such conduct, he declined to explain. The mind reader stepped forward and stated that Lucas was certainly mistaken in the man, and that he would pay the fine assessed by the court. Judge Powers gave the defendant a lecture and fixed the penalty at \$12.75. The transmigration of the mind man planked down the plunks and the court adjourned.

# NEW COTTON PICKER HAS WORK APPROVED

IN FIELD NEAR DALLAS MACHINE'S  
VARIOUS USES ARE SHOWN TO  
FULL SATISFACTION OF  
WITNESSES.

Crowd of Business Men and Farmers to  
See It.

From Dallas News, Sept. 18, 1910.  
The first practical demonstration of the  
Price-Campbell cotton picking machine  
to be held in North Texas was given

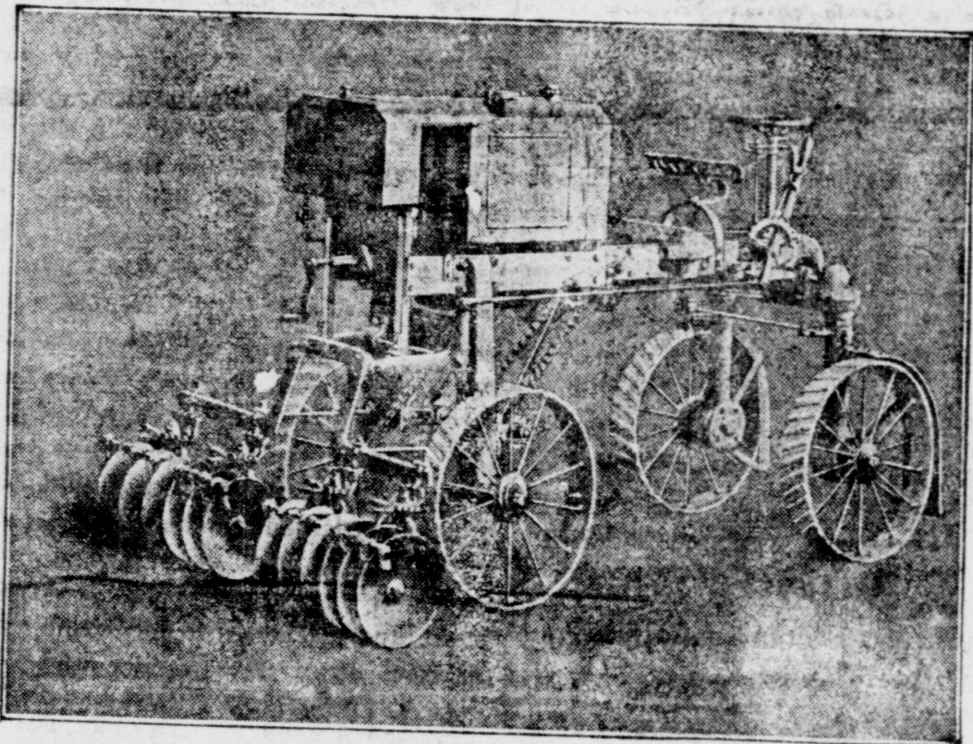

READY FOR PICKING OPEN COTTON.

yesterday afternoon on the Caruth farm, northeast of Dallas on the Sherman-Dallas interurban line, where a portion of W. C. Burden's cotton crop was harvested by means of the mechanical picker. The demonstration was witnessed by about 500 citizens of Dallas and the immediate vicinity. The opinion of those qualified to know was that the Price-Campbell picker is a great success and that one of great labor problems that confronts the cotton growing belt today has been solved.

Seeing Is Believing. Many of those who composed the party went to the cotton field in a mood most skeptical and expressions frequently heard indicated that the minds of most of the crowd were filled with doubts as to the practicability of any mechanical contrivance to successfully supplant the negro cotton picker. Enthusiasm, interest and belief in the invention began to grow by leaps and bounds, however, when the motors whirled and the machine started down a cotton row.

Nimble Fingers Work. The cotton fibre, snatched from the stalks by a battery of rotating metal fingers, was carried upward and deposited in sacks at the rear of the machine and as the waves of the fleecy white staple flowed into the retaining receptacles those who watched were changed from skeptics into admirers. Complimentary remarks took the place of criticisms that had preceded the exhibition. It was another illustration of the old-time and trite expression, "seeing is believing." Through the medium of sight, those present realized that a successful cotton picker was an actuality and not an untried scheme. Many farmers from the section around the Caruth farm were present. The

COTTON PICKER ARRANGED FOR DISC HARROW WORK.

party was composed of both men and women and was personally directed by Mr. Price.

To describe the cotton picker in its mechanical details would take an expert mechanician and such a description would probably mean little except to one familiar with machinery.

Gasoline Motor Machine. The average observer sees a gasoline motor machine of ten or twelve feet in length. It is equipped with alternating row of interlocking metal fingers through which the cotton stalks pass. The fiber is gathered into storage bags attached to the rear. The driver, or operator, occupies a seat over the forward wheels and operates the machine much after the manner of driving an automobile.

In action the cotton picker travels down the row at a rate of between three and four miles an hour. In yesterday's demonstration the stalks were plucked clean of cotton and an examination after the machine had passed proved that unopened bolls and the growing stalk were uninjured.

In the field where the exhibition was given were shown two bales of cotton, one of which was harvested with the cotton picker and the other gathered by hand, and it was notable that although the cotton came from the same field the grade of the bale picked by machinery was better.

Machine Has Many Uses. According to the owners, the Price-

Campbell machine is not alone a cotton picker, but can be converted to many uses on the farm. Special equipment makes of it either a plow, a disc harrow, a cotton chopper or a stalk cutter, to say nothing of the other uses to which the propelling power can be applied. Some of the advantages claimed for the machine are: It will pick an acre an hour and get all the open cotton on the plant; it does not injure the plant nor harm the unopened bolls or delicate blooms; it is operated by one man. Arrangements have been made to exhibit the cotton picker at the coming State Fair, and a patch of cotton has been planted in the race course infield for this purpose.

Following the demonstration of the work of the cotton picker several prominent men of the crowd expressed the impressions that had been gained by the enduring the afternoon. Some of

these talks are given below:  
Opinion of those who have seen the machine in successful operation:  
Royal A. Ferris, president of the American Exchange National Bank of Dallas, said: "This new cotton picker, to my mind, is the most remarkable thing I have ever seen."

E. D. Murray of the Murray Gin Co., said: "Mr. Price has got the cotton picker; it is a success and can be called a success."

Col. John N. Simpson, said: "It is what I call a perfect machine. It is a success, gentlemen."

Lewis Dabney: "It is of untold benefit toward the upbuilding of the South."

E. E. Callahan of the American Exchange National Bank: "It is nearly enough perfect to be practical."

S. J. Hay, mayor of Dallas: "It surpasses my most sanguine expectations."

Prof. S. A. Laird: "It most assuredly picks the cotton."

Col. W. A. Bowen of Arlington: "An undoubted success. I counted bolls on 110 stalks and found only nine bolls unpicked."

W. S. Kirby, of Dallas: "I am a cotton planter of many years' experience and have seen the Price-Campbell Cotton Price-Campbell machine does the work."

P. R. Freeman, business man of Dallas: "A revelation to a skeptic."

C. H. Alexander, prominent business man of Dallas: "I think the machine is a winner and I predict that in a short time it will be absolutely perfect in its operation. The principle is correct and by virtue of the fact that it does not disturb or break the unopened bolls or even the bloom. It removes the one objection I had in mind prior to witnessing a fair test on September 21, 1910."

R. D. Roberts, cotton planter, of Red

## SIDNEY SUGGS KILLS THE FIRST STEER

The Fat Editor of Ardmore Has Great Distinction at Opening of Packing Plant.

Oklahoma City, Okla., Oct. 3.—Sidney L. Brock, president of the Board of Commerce while in New York City at 10 o'clock this morning touched the electric button and within thirty seconds the vast machinery of the new Morris Packing plant was put in operation. Amid the cheers of ten thousand people, Col. Sidney Suggs, editor of The Daily Ardmoreite at Ardmore, killed the first steer for the great packing plant.

The opening was attended by a vast crowd of people from every section of the state and especially was there a large attendance of stock men who are ready to make their shipments to Oklahoma City instead of sending their cattle to other states.

This day marks an important epoch in the industrial history of the state of Oklahoma.

## Jailed on Felony Charge.

John Block and Dillard Perry, two negroes living on Sunday were arrested and placed in jail this morning by Deputy Lem Mitchell. They are charged with selling whiskey to a minor and are in jail in default of making a \$500 bond each.

## A question of Jurisdiction.

Joe Morris and Frank Leach of Oakman were arrested yesterday and brought to Ada. The first on a charge of fighting, the second on a charge of disturbing the peace. Both had receipts from the Francis justice of the peace showing they had paid their respective fines in that court for these identical offenses. The county attorney held that the justice court was without jurisdiction and the matters were taken to the county court.

## McALESTER TAKES ON NEW FORM

Thriving Mining Town to Work Under Commission Form Henceforward.

McAlester, Ok., Oct. 3.—The new charter providing for commission form of government goes into effect at midnight. But few appointments outside of those made by the mayor have been announced. L. J. Heffley, formerly of Cameron, Tex., has been appointed Chief of Police, and I. L. Holbrook, chief of the fire department, has been reappointed. W. P. Halliday (republican) will be city engineer. The old council held its last meeting tonight and the three new commissioners, Pete Hanraty, H. F. Schreiner and Wallace Bond, all democrats, will meet tomorrow morning to assume their duties and will be sworn in by Superior Judge P. D. Brewer.

Tickling in the throat, hoarseness, loss of voice, indicate the need of BALLARD'S HOREHOUD SYRUP. It eases the lungs, quiets the cough and restores health in the bronchial tubes. Price 25c, 50c and \$1.00 per bottle. Sold by Ramsey Drug Co.

## To Stump Against Cannon.

Danville, Ill., Oct. 3.—It was announced today that William J. Bryan will spend two days stumping this congressional district against Speaker Cannon. He will come into the district at Kankakee, Oct. 20.

## THE REAL TEST

Of Herpicide Is in Giving It a Thorough Trial. There is only one test by which to judge of the efficiency of any article and that is by its ability to do that which it is intended to do. Many hair vipers may look nice and smell nice, but the point is—do they eradicate Dandruff and stop falling hair? No, they do not, but Herpicide does, because it goes to the root of the evil and kills the germ that attacks the papilla from whence the hair gets its life.

Letters from prominent people everywhere are daily proving that Newbro's Herpicide stands the "test of use." It is a delightful dressing, clear, pure and free from oil or grease.
